Etix Everywhere Experiences Exponential Growth in 2016

Following U.S. Expansion, Etix Everywhere Continues Data Center Construction Across Four Continents

New York - December 20, 2016 — [Etix Everywhere](#), a European data center developer and operator, announces today its unprecedented international success throughout 2016. Following its U.S. expansion with new offices in New York and San Francisco in February, Etix Everywhere has driven exponential growth with six data centers and eight additional facilities under construction throughout key markets, including various Tier 2 and Tier 3 cities across Europe and the U.S., as well as emerging markets across the Middle East, Africa, South America and Scandinavia.

“Given recent expansion into two major U.S. commercial hubs and exciting new data center projects across both established and emerging markets throughout the world, 2016 has proven to be a significant year of growth for Etix Everywhere,” states [Charles-Antoine Beyney](#), Co-Founder and CEO of Etix Everywhere. “Our hard work and dedication to providing superior data center facilities and services for global customers has driven our international success.”

With advanced negotiations for projects across 20 countries in the past year, Etix Everywhere has seen a 150 percent growth rate in built data center modules and a 400 percent increase in data centers signed, underscored by significant increases in personnel as it massively invests in R&D for drastically enhancing the data center experience of its global customer base. The company also provides a vast portfolio of data center services, including real estate, design, build, operations and finance. Leveraging a holistic approach to data center design and operation, Etix Everywhere facilities meet and exceed Tier 3 requirements, offering unique power design, 100 percent uptime to date and flexible ownership opportunities.

“At Etix Everywhere, we have broadened our reach outside of major metro areas and global connectivity hubs to bring superior data center services to emerging, secondary markets around the world,” says [Stephen Belomy](#), SVP U.S. West Coast at Etix Everywhere. “Our expansion into the U.S. has proven especially successful and I am excited to see how our flexible and holistic approach to data center services will translate across the global market.”

With a name derived from the phrase 'ethical internet exchange,' Etix Everywhere is building a worldwide proximity data center network, leveraging commitment to long-term sustainability for customers. Combining free cross-connects, 50/50 joint venture opportunities and reliable data center design and construction, the company's flexibility and breadth of services provide clients with tailored solutions built to suit their individual needs.

"Etix Everywhere dedicates a tremendous amount of resources to develop smart data centers that automatically monitor and operate themselves, helping to maintain their profitability," shares [Anthony Verda](#), SVP East Coast at Etix Everywhere. "These innovative technologies, combined with a trustworthy partner for the design, build and operation of a data center, and a joint venture proposition that cuts the cost of ownership in half, are a unique offering in today's market and sets Etix Everywhere apart as an industry leader."
